Statistical category ranks are as follows:
 1. Culture
 2. Field Goal Percentage
 3. Assists
 4. Offensive Rebounds
 5. Turnovers
 6. Steals/Charges
 7. Game Score

How to win a game:

- The team that has the most points gathered from the categories below wins the game:
 - Game Score = 1 point
 - The team that wins game play is awarded 1 point
 - Field Goal Percentage = 1 point
 - The team with the highest FG% is awarded 1 point
 - Offensive Rebounds = 1 point

- The team with the most offensive rebounds is awarded 1 point
- Steals/Charges = 1 point
 - The team with the most steals and charges is awarded 1 point
- Assists = 1 point
 - The team with the most assists is awarded 1 point
 - Assists only count if the scoring player acknowledges the passer
- Turnovers = 1 point
 - The team with the least amount of turnovers is awarded 1 point
- Culture = 1 point
 - The team with the least amount of culture marks is awarded 1 point.
Culture marks are given when:
 - Players fail to stand and high-five teammates during substitutions, timeouts, or game breaks.
 - All 4 players on the court fail to high five a teammate after their 1st free throw attempt (a player is excused from high-fiving a teammate if they are speaking with a coach).
 - Coaches or players argue and/or complain to the referee
 - Players fail to clean up their bench upon completion of a game.
 - Automatic Culture loss
 - An automatic loss in the Culture category will be given to a team that has parents and/or spectators that are considered to be doing the following:
 - Complaining or arguing with referees, or
 - Coaching/directing players on the court
 - A visual warning will be given with a red cone being placed next to the scoreboard on the side of the violating team's score. If the actions persist, an automatic category loss will be marked on the stat sheet of the team in violation.
- Example:
 - Team A wins the game (1 point), has the most steals/charges within the game (1 point), and the least amount of turnovers within the game (1 point), which gives Team A a total of 3 points. Team B shoots the highest FG% within the game (1 point), has the most offensive rebounds within the game (1 point), the most steals within the game (1 point), and the best culture during that specific game (1 point), giving Team B a total of 4 points. With Team A having 3 points and Team B having 4 points, Team B would be deemed the winner of this particular game, even though Team A won the actual game play.
- Tie-breaker:
 - If there is a tie, the winner will be the team that won the highest ranking statistical category. Statistical category ranks are as follows:
 1. Culture
 2. Field Goal Percentage
